

City of Houston Resiliency Projects

Protecting Houston's Power. Supporting the Community.

We keep communities connected. Our sustainable and scalable natural gas microgrids provide reliable backup power for critical infrastructure, ensuring Houston-area neighborhoods have access to essential services when the grid goes down.

Here's how we've supported the Houston Metro Area*:

23,400
Hours of Utility
Outages Avoided

5,300
Power Outages
Avoided

14+ DAYS
Longest Power Outage
Covered (Hurricane Beryl, 2024)

129
Microgrid Sites

6
Assisted Living and
Senior Facilities

7
Water Management
and Utilities Sites

110+
Grocery and
Retail Facilities

We're proud to call Houston home. As we continue to expand our reach to meet rising energy demands, we're committed to delivering reliable and sustainable solutions that keep the power on for our friends and neighbors across the region.

* Through June 2025
