

ENCHANTED ROCK

The Power is On.

Electrical Resiliency-as-a-Service

MORE RELIABLE. MORE AFFORDABLE. MORE SUSTAINABLE.

PROTECT AGAINST OUTAGES

MANUFACTURING

99.999% combined reliability

10 second fast start, rich burn technology

24/7/365 monitoring and management via mNOC

Autonomous, preemptive islanding

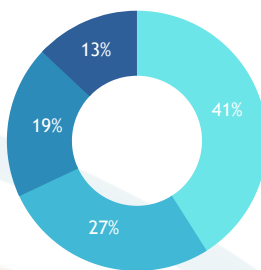

Weekly inspections & maintenance by Enchanted Rock technicians

Continuous, reliable underground gas infrastructure
RNG option available

I am very concerned that the energy transition will sacrifice grid reliability

I think extreme weather and power outages are increasing due to climate change

I am concerned about grid reliability and need to invest in site resiliency to protect my operations

I think investments in the grid will help reduce outages

"73% of business customers are concerned grid reliability will not keep up with climate change and the energy transition, and they need to invest in their own resiliency." ¹
